Doublesan Doc – 1997 AQHA Stallion Peppy is N/N on his 5 Panel Disease Test Results

DOUBLESAN DOC May 25, 1997 - AQHA Stallion

I don't think you could get much more pedigree into his papers. All of those names on those papers speak for themselves. This guy is really something to watch when he is on the move. He is great to work with, and when you walk into the pasture he is one of the first ones to come to greet you. Even though he is not real big he can put some real size into his foals. He always puts his looks and talent into them and we are planning on keeping some of his daughters to cross back.

PEDIGREE of DOUBLESAN DOC May 25, 1997 - AQHA
